

Accounting

Accounting Monopoly: Round 1

- Using the 'quick start' method, deal two property cards to each player, and \$1500 in cash.
- Create a balance sheet to show your financial position at the start of the game.
- Play Monopoly for 45 minutes.
- Take another 'snapshot' of your financial position – create your balance sheet at the end of the allotted time.

opening example...

Christopher Alexander
Balance Sheet
Sept 12, 2012

<u>Assets</u>		<u>Liabilities</u>	
Cash	\$1,500	Total Liabilities	0
Properties			
- Marvin Gardens	200		
- Boardwalk	<u>400</u>	<u>Owner's Equity</u>	
		C. Alexander, Capital	\$2,100
Total Assets	<u>\$2,100</u>	Total Liabilities & Owner's Equity	<u>\$2,100</u>

Homework...

- In a file called MonopolyPartOne, create both your starting and ending balance sheets.
- Share these with MrAlexanderCHSS@hotmail.com
